

The London Temporal Bone Dissection Course
Temporal Bone Radiology Session

Friday 12 June 2015: One day course

Hodgkin Building

Guy's Campus (near London Bridge Station)

London

Course lead: Dr Steve Connor

(Surgical course: Mr Alec Fitzgerald O'Connor and Prof Dan Jiang)

Course fee £100

(including lunch and refreshments)

The Royal College of Radiologists has awarded 7 CPD points

This is a course aimed at senior trainees and consultants with an interest in head and neck radiology. There are comprehensive lectures on temporal bone radiology (see attached timetable). There is an opportunity to observe fresh temporal bone dissections which illustrate the common surgical approaches and to discuss with surgeons what they really want from the radiologist! There are also opportunities for discussing temporal bone topics with faculty and with other radiologists. There is a quiz if you are up for the challenge.....

Excellent feedback from previous years.

Application process:

1) If you would like to attend then please contact

sejconnor@gmail.com

Places are limited but if still available, you will receive a confirmation e mail and an application form.

This confirmation e mail will also act to reserve a place for 4 weeks pending receipt of the completed application form.

Preference will be given to those who have been unable to gain a place on previous courses. If there are no longer places available then your details will be kept for the following year.

If you receive a confirmation e mail then please ASAP:

2) Complete the application form and send with a cheque for £100 made payable to 'London Temporal Bone Dissection Course'

To:

Catherine Hall

MED-EL UK Limited

Great Cliffe Court

Dodworth

Barnsley

S75 3SP

You will receive a receipt by e mail

No refund is made for cancellations although transfer to a future course will be possible if made more than 28 days prior to the course
